NOTE

Numerous requests for Burlington County marriage records have been received, and we have for some time been collecting data from this county, which is presented in this volume.

No doubt there are many marriage records in this county which have not been accessible, and should they become available they may make material for a second volume.

To prevent confusion, we have spelled the month in dates prior to 1752, when both the Gregorian and the Julian calendar were in use. In items since that date the number of the month is given-

The source from which the data is taken is indicated by a superior figure, and a key to the sources will be found on the following page.
